We broke the billion dollar mark - USD 1.2 billion revenue.

- 2020 was defined by Covid-19 and its wide-ranging impacts. It has accelerated the structural shift of preference from credit to debit, with e-commerce becoming an increasingly dominant channel for retail.

- 87 million active consumers globally are now choosing Klarna for a healthier, simpler and smarter way to shop, pay and bank every day.

- Globally, the Klarna app now has 18 million monthly active users, and the number of installs has increased 2.4x comparing Q4 ’19 to Q4 ’20.

- In the US, we reached 14 million consumers by year end, and more than 3.5 million monthly active app users. Our app averaged 60,000 daily downloads in December and was downloaded close to 4 million times more than our nearest competitor in 2020.

- More than 250,000 retailers now trust us to connect them with consumers and work together to deliver incremental sales. We signed more high grossing US retailers - including Sephora, Etsy, Macy’s, Foot Locker, Urban Outfitters, Ralph Lauren, Timberland, Saks OFF 5th - than any of our competitors.

- Credit losses as a percentage of total gross merchandise volume decreased across all major markets.

- We have launched our pay later offering in 4 new markets - Australia, Italy, Belgium and Spain. More to follow next year.

The information is presented for Klarna Bank AB (publ).
¹ Klarna Bank AB (publ)'s results are reported in SEK. To arrive at USD values, the average exchange rates YTD have been used; 1 USD equals approximately 9.2 SEK for 2020 and 9.5 SEK for 2019.
² The % increase in GMV is based on the SEK value between FY 2020 and FY 2019.
³ The % increase in Revenue is based on the SEK value between FY 2020 and FY 2019.
⁴ For revenue bridge between management accounts view and statutory view see slide 16.
Our increasing momentum is powered by the strength and relevance of our product.

Accelerated growth
Year-on-year growth in gross merchandise volume (rolling 12 months)

- In 2020 we found new and better ways to ensure that consumers always chose Klarna first and can use Klarna everywhere through our shopping browser, card and in-store capabilities.
- We are building our brand presence in every market, focusing on providing retail partners and consumers with a smooth Klarna experience, resulting in an NPS score of 80 in the US.
- We continue to focus on Klarna being easy to use and easy to keep using. We now offer a one-click experience, digital receipts, images of items bought, shipment tracking, and enhanced customer service and returns.
- We have also provided consumers with useful tools to enhance their shopping experience including saved wishlists and notifications on deals and price-drops.
- We have leveraged our data to offer our consumers what they really want, and our retailers the opportunity to capture their intent.
- These factors have led us to see continuous accelerating growth.

Constant FX calculates the rolling 12 months daily volume weighted average FX to SEK and apply those rates to the comparing period.
Brick-and-mortar customers can make purchases at any physical store while enjoying a seamless, personalized and engaging shopping experience as they would online.

The Klarna app gives users access to daily exclusive deals and price drops from around the globe.

Users get all their delivery information in one place by connecting their email, regardless if they paid with Klarna or not, to help keep track of all their orders.

Shipping browser
Klarna app users can now shop and pay for their purchases at any retailer online through the shopping browser.

In-store
Brick-and-mortar customers can make purchases at any physical store while enjoying a seamless, personalized and engaging shopping experience as they would online.

Wish list
Users can add their favorite items to sharable wishlists and get price drop notifications on any item they pin.

Deals
The Klarna app gives users access to daily exclusive deals and price drops from around the globe.

Delivery
Users get all their delivery information in one place by connecting their email, regardless if they paid with Klarna or not, to help keep track of all their orders.
Klarna app continuing to show strong momentum.

App usage increases as we add more customer-focused enhancements such as price drop notifications, paying with flexible alternatives and delivery tracking.

1 million active Vibe members.

Our loyalty program which rewards consumers who pay for their goods on time.

Vibe - Klarna loyalty program
# of vibe users in the US

Launched September 2020 - the first shopper loyalty program globally within our industry.

More than 1 million customers signed and growing.

Currently live in the US and Australia, rolling out in additional markets during 2021.
The Klarna Card is part of the “Klarna everywhere” concept - allowing consumers to shop with us anywhere.

The popularity of the Klarna card is evident as Klarna users shift a larger portion of their everyday purchases to Klarna.

The Klarna Card is now live in Sweden and Germany. More markets to follow.

Immediate traction for our savings accounts in the first 12 weeks in Sweden, providing competitive consumer rates and expanded banking offering. In February 2021 we also launched current accounts in Germany.

**GMV for users before and after signing up to the Klarna Card, Sweden**

- **2.6x**

**SEK 4bn saved through our new accounts within 12 weeks**

Leading the industry in putting the consumer first.

Active managing down late fees

Driven by the growing app usage adoption as the app helps consumers keep track of their outstanding payments, giving them greater control over their personal finances.

Indexed late fees as share of volume. Late fees are defined as fees that originate from consumers not paying on time.

Launch of the “Never forget test” (SE)

- Part of Klarna’s overall work to actively manage down the share of late fees in relation to total volume.
- Consumers can get reminder fees back by doing the “Never forget test”, which promotes responsible spending and gives tips to consumers on how to pay future invoices on time.

Nollmissionen (SE) - “Mission zero”

- Our long-term commitment to increase transparency around customer complaints and reduce them to zero to ensure 100% happy customers.
- Halved complaints in 2 years from 40 per one million purchases in 2018 to less than 20 per one million in 2020.
- Mission zero will become global in 2021.
A preferred growth partner for retailers.

Klarna Bank AB (publ)’s Revenue sets a new record with USD 1.2bn\(^1\) (SEK 11bn). The bridge shows the management accounts breakdown from Revenue to the statutory figure for Total net operating income.

We believe Revenue is the best indicator for how much value we are sustainably generating from our business. We consider Net financials a cost, in-line with our peers. Commission expenses is a cost associated with customer acquisition, and Financial gains and losses & Other are also considered cost items, with most of it not related directly to our core business.

---

\(^1\) Klarna Bank AB (publ)’s results are reported in SEK. To arrive at USD values, the average exchange rates YTD have been used; 1 USD equals approximately 9.2 SEK for 2020.

Numbers may not sum due to rounding.

The information is presented for Klarna Bank AB (publ).

- Merchant revenue (recognized in commission income) increased by 57% as we continued to drive sales for and add value to our partners.
- Interest income grew by 17% YoY to SEK 3,265m, driven by the Financing product in the Nordics and DACH while we see an accelerating consumer demand for our interest free payments offering across all markets.
- Growth in commission income was driven by increased sales volumes and higher consumer activity across all markets but especially in the US and UK market.
- Total net operating income growth of 40% to SEK 10bn, driven primarily by growth in net interest income of 10% and growth in commission income of 47%.
- Total operating expenses before credit losses grew by 43% YoY. We remain committed to further investing in expanding and enhancing our consumer-friendly product offering as well as in top talent and increased brand awareness, with a focus on the US, UK and continued market expansion.
Volume growth contributed to an increase in Loans to the public of 41% YoY to SEK 41,718m (USD 4,535m). Growth has been funded by the increase in Deposits from the public, which are primarily driven by EUR deposits.

The average duration of our credit portfolio is ~40 days. This means we can steer balance sheet growth and related risk quickly. In the context of the current macro environment, we maintain a reserve of SEK 70m as market conditions remain uncertain in light of Covid-19 and its related effects.

In September, we raised USD 650m in an equity funding round to fuel our continued growth. The funding round was led by Silver Lake, the global leader in technology investing, alongside GIC - Singapore’s sovereign wealth fund - as well as funds and accounts managed by BlackRock and HMI Capital.

The information is presented for Klarna Bank AB (publ).

---

1 The effect on equity will be reflected in the annual report for Klarna Holding AB.
Positive cash flow from operating activities, as increased negative operating profit was offset by increased non-cash items (such as provision for credit losses) and positive change in the assets and liabilities of operating activities (such as increase in deposits from the public).

Decreased negative cash flow from investing activities, as higher investments in intangible and tangible assets were offset by lower investments in business combinations (last year’s period includes the acquisition of Close Brothers Retail Finance).

Negative cash flow from financing activities due to reduced amount of debt securities in issue.
This is Klarna.

- Active in 17 core markets on three continents.
- Partners with +250,000 retailers globally.
- More than 87 million active consumers worldwide.
- +57% volume growth and +30% revenue growth (CAGR) during the last seven years.
- Top tier investor base including Sequoia Capital, Permira, Bestseller, Commonwealth Bank of Australia, Silver Lake, Dragoneer, Atomico, Ant Group, Blackrock, H&M and Macy’s.
