The guide to market Klarna in-store solution like a pro.

Klarna.

More payment options, more sales.

Your physical store is facing online competition. Webstores have advantages that physical stores simply can't match...

Until now.

By promoting Klarna's payment options in your store, you give your customers the same flexibility that they get online; they get to pay later while you get the money up front. That means more items in the basket and less people walking out empty handed. **This is your edge.**

Small tweaks, large impact.

Small changes to the customer journey in your store will mean a lot to your sales numbers.

- **Before the store.**

Every marketing touchpoint before their visit.

Leverage your webshop and social media to change purchasing power before they step foot in your store.

- **Store entrance.**

Doors, windows and entrance area.

Explain flexible payment options and turn visitors into shoppers.

- **Product section.**

Product browsing sections.

Drive upsell by explaining the opportunities of Klarna payments.

- **The checkout.**

The queue and cashier.

Make it easy peasy! Give clear instructions early on in the checkout.

Before the store.

Your customers will buy more with flexible payments.
So shout it from the rooftops.

Take it to the web.

Use your webshop to tell customers they can use Klarna anywhere they shop with you.

Spread the word.

Tell your customers on social and email that you offer Klarna's flexible payments IRL.
